

GENIUS X CUSHION

GALLERIA IMMAGINI

Genius X is the perfect cushion for active people, it is made by different antidecubitus materials with various densities. It has been conceived to guarantee a good position and the right weight distribution.

DESCRIZIONE PRODOTTO

Comfortable and lightweight

Genius X is conceived as an anti-decubitus cushion, relatively postural, slightly shaped in the front profile. It is composed of various materials, each of which with a different intensity.

Breathable

The breathable lining and the different materials used internally have been designed to guarantee the maximum of transpiration.

Different heights and sizes

It is possible to buy the cushion in the standard sizes or require one of the customised sizes. The cushion can be 5 cm or 7 cm high.
